

## Long Term & Continuing Care *Your Career of Choice*

With so many different careers being replaced by computers and technology, where does one go on their career path to where real human connection and gratification are offered?

### Why work in Long Term & Continuing Care?

*(Excerpts from "10 Myths of Long Term Care Nursing"  
- Lesley Young, Registered Nurse Journal)*

- 
- **You really get to witness the results of care in residents over the long run, unlike other settings where patients come and go as quickly as your shifts.**
  - **When you get a chance to see life as it has been lived by these octogenarians and nonagenarians, and you project your own life into the future, it opens a door on what it means to be human. It encourages our own humanness, which is helpful when interacting with patients at any stage of life.**
  - **Working in long term care requires superb leadership skills and outstanding assessment skills**
  - **Excellent benefits and wages**
  - **What your heart puts into it, you receive back tenfold.**

### Examples of Careers in Long Term & Continuing Care:

Registered Nurse  
Licensed Practical Nurse, Allied Health  
Health Care Aide  
Housekeeping  
Supportive Housing Companion  
Dietary Department

***A computer cannot make  
that personal connection***
